## Wildcat Team State Champs

### Joe Jablonowski Pitches Big Green Nine to End

Captain Dick Flynn Knocks Two Home Runs in 10-4 Wildcat Victory—Dartmouth Pitchers Take Bad Beating

All that was required of the Wildcat baseball players to win the college championship of the State of New Hampshire for the 1929 season was to demonstrate supremacy over Dartmouth College, and that they did last Saturday when they walloped the Big Green team for a 10 to 4 victory at Hanover.

CAPT. RICHARD FLYNN  
Who knocked two homers against Dartmouth

The university batters pounded two Indian pitchers for ten hits, sending Gunner Hollstrom, who held a former record of six victories out of eight conflicts, to the showers at the end of the fifth. Shep Wolff was then sent to the mound for the Green and he allowed three hits in the next four innings. Joe Jablonowski made an impression on some of the greatest players of the East when he endured the entire game as the Wildcat twirler and allowed only six hits.

A big feature of the game came as a pleasant surprise to Coach Swasey and his men, as well as the university students, in Captain Dick Flynn's two home runs, one of which brought in a man already on base. The Wildcats registered an early start, giving themselves plenty of encouragement all the way as they scored run after run before the Dartmouth offense game yielded them anything until the sixth inning. In that frame they brought home half their total runs on Red Rolfe's homer with Parker on base. Not until the last round did Dartmouth score her two other runs. This was made possible when Harvey brought in two on his two-base hit.

The sixth inning was a fruitful one, giving New Hampshire five scores. (Continued on Page 3)

## THE SMOKER

By J. R. A., '32

Monday, June 2, the Sophomores held their annual smoker in the Commons Lounging Room.

Chandler Ryder, President of the class, opened the meeting with a short address welcoming those present and explaining that the purpose of the gathering was to get the class together for the last time as sophomores. Mr. Ryder proceeded to act as toastmaster for the evening and introduced the freshmen who were to furnish the entertainment for the evening. Each introduction was accompanied by little embellishments endeared to the hearts of the sophomores.

The first number on the program was a fife duet by the company of Slack and Slack, followed by a recitation by one of them, we haven't as yet been able to ascertain which one. Mr. Joseph P. Toolin rendered a little vocal selection followed by a recitation by Jack Washburn. The next number was a feature act. It consisted of a vocal solo by Norman Randall, the Commons ba-da-de-da man, accompanied by Mr. Bag-

From music the entertainment changed to tests of physical strength, exemplified by a wrestling match between Richard Eustis and Bradford Boothby. Then the program went to music again with a series of numbers on the jew's harp and harmonica ably rendered by D. Chrysler Blaisdell.

Following the entertainment Professor Johnson spoke for a few minutes on the Outing Club and the proposed Organization Building. The meeting was closed by singing "On to Victory." The committee in charge consisted of Paul Higgins and Wilder Quint. Prescott, Vianno, and Billman were the freshman waiters who served punch, doughnuts, tobacco, and corn-cob pipes.

## CALENDAR OF EVENTS

Thursday, June 6  
Mask and Dagger Play, "Minick," 8:00 P. M.—Murkland Auditorium.  
Election of Sphinx officers, 7:00 P. M.

Friday, June 7  
Dancing Class Ball—8:00 P. M.  
Saturday, June 8  
Varsity Baseball Team meets Connecticut Aggies at Storrs.

Monday, June 10, to Friday, June 14  
Final Exams.

Friday, June 14 and Saturday June 15  
Mask and Dagger Production, "Minick"—Murkland Auditorium.

Commencement Exercises.  
Varsity Baseball Team meets Brown here on Saturday, June 15.  
Sunday, June 16 and Monday, June 17  
Commencement Exercises.

## PLEDGING NOTICE

Theta Alpha Chapter of Theta Upsilon Omega announces the pledging of Kenneth Sinclair Savage '31, of Riverton, N. H., Philbert Ernest Remick, '31, of Riverton, N. H., Ernest Frank Dunford, '32, of Keene, N. H., and Ralph Chester Dunford, Jr., '32, of Keene, N. H.

## LOCAL COACH HEADS NEW FLYING SCHOOL

E. W. Christensen, '23 and E. L. Gadbois, '21 to Operate at Manchester—Russell Hilliard, '20 to Superintend and Give Instruction

Announcement of a Flying School to be held at the Manchester Airport this summer and operated by E. W. Christensen, '23, and E. L. Gadbois, '21, was made recently by Coach Christensen. Russell Hilliard, '20, who was a commissioned pilot in the late war and who has since been operating planes, will superintend the school and give instruction. At present there are available two Waco bi-planes of two passenger capacity each. The school will be open to the public during the entire summer. Accommodations may be made to instruct students in cities and towns in which they live provided there is a large enough number desiring instruction. Planes may be engaged for joy-hopping, passenger service, or special trips. For full particulars concerning the cost and periods of instruction consult Coach E. W. Christensen. Suitable terms can be arranged.

## College Editors Meet at Durham

### Agricultural Writers Here From July 9 to 12

Speeches and Discussion Will Be Followed by Tour Through White Mountains—Posters, Photographs, and Stories Will Be On Exhibition

Editors from most of the agricultural colleges and experiment stations in the United States will meet at the University from July 9 to 12 at their annual meeting of the American Association of Agricultural College Editors, according to an announcement made today by H. B. Stevens, the host editor. The Durham meeting will be the first one of its kind held in New England within ten years.

Following two days of discussion and speech making, the editors will tour through the White Mountains as the guests of the New Hampshire Publicity Bureau. En route it is probable that the Rumford Press at Concord will be visited.

During the week of the conference and exhibit of the best bulletins, news stories, posters, and photographs which have been used during the year to further agricultural extension and experiment work throughout the country will be on display, at the University library.

The program which is only partly completed, will include addresses of welcome by President E. M. Lewis and Director Kendall and such discussion topics as "How far shall the county agent go in newswriting, county agents news contracts, bulletin preparation and distribution, and the use of the radio in extension work."

## ALPHA XI DELTA HOLDS DANCE AT CHAPTER HOUSE

Tau of Alpha Xi Delta held its annual spring formal at its chapter house on Saturday, June 1st. The house was uniquely and attractively decorated with futuristic lanterns and designs. Music was furnished by the popular Red Ramblers of this campus. Mr. and Mrs. C. F. Jackson, Mr. and Mrs. Thorsten Kalijarvi, Mrs. Addie Spinney, and Mrs. Clara Flanders acted as chaperones. Among the alumnae back for the dance were Kelsea Griffin, '28, Marguerite Pol-lard '28, Ruth Wright '28, and Evalyn Davis '28. Several guests were present from Alpha Xi Delta Chapters at Jackson and Middlebury. Some of the other guests were: John Small, Raymond Slack, Ralph Miller, Edwir Betz, Herman Abrahamson, Rowland Bayley, Elwyn Southmayd, Rexford Dean, Marshall Messenger, James Black, Alfred Taylor, Clarence Sprague, Roger Spinney, Gordon Seavey, William Monahan, G. Lloyd Atwood, Richard Taggart, Gerald Bagley, Clyde Eaton, Eric Maenab, Wylder Quint, Eugene Worthen, Robert Greene, George Tuttle, Donald Barton, Ned Elliott, Earl Batchelder, Wallace Nelson, Donald Piper, Alvin Reinhardt, Fred Johnson, and David Stafford.

On Sunday the following day Alpha Xi Delta entertained its guests at an informal dinner held at the chapter house.

## Charles Hood Here June 14

### Mask and Dagger Play Starts Commencement

Commencement Ball Takes Place at Commons Friday Evening, June 14—President and Mrs. Lewis Among Those in Receiving Line

At the 59th annual Commencement Exercises of the University of New Hampshire, which will be held from Friday, June 14 to Monday, June 17, one of its most prominent and successful graduates, Charles H. Hood, '80, will be present for the first time. Mr. Hood was recently named as an alumni trustee of the University by the board of trustees, and will serve in his official capacity at the exercises. He is one of the most prominent business men in New England and is president of H. P. Hood and Sons Co., of Boston, a well known dairy product firm.

CHARLES H. HOOD, '80  
New president of the Board of Trustees

The commencement festivities will start with the presentation of *Minick* by Mask and Dagger, the University dramatic society, in Murkland Auditorium on Friday evening. This popular play, written by Edna Ferber and George Kaufman, made its first appearance in Durham last night and was exceedingly well received. It is sure to attract a large and enthusiastic audience upon its presentation as a feature of the commencement program.

On Friday evening, also, the Commencement Ball will be held at the University Commons with Ferdinand's Orchestra of Manchester furnishing the music. This popular orchestra has recently returned from an engagement in New York City and is playing the night before at Yale. In the receiving line will be President and Mrs. Edward M. Lewis who will be guests of honor; the chaperones: Professor and Mrs. Thorsten Kalijarvi, Professor and Mrs. Ray Starke, Dean Elizabeth P. DeMeritt, Mrs. Helen Leighton; and the Senior class officers.

## NOTED AUTHORITIES AT POULTRY SCHOOL

Banquet at University Commons—Trip Through University Poultry Plant—Election of Officers at Business Meeting

Speakers at the annual two-day poultry school to be held at the University of New Hampshire, Durham, June 27 and 28 will include, Prof. Harry R. Lewis, president of the National Poultry Council, Dr. F. A. Hayes, a specialist in poultry breeding at Massachusetts Agricultural College, Prof. W. C. Thompson of the New Jersey Experiment Station, Mr. G. H. Powers of the United States Department of Agriculture, and L. A. Carlisle, deputy commissioner of agriculture.

Andrew Christie of Kingston, president of the New Hampshire Poultry Growers' association, announces that a banquet will be held at the university Commons on the evening of the first day of the school, and a trip will be made through the university poultry plant to inspect the brooder house being constructed which is expected to be nearly completed in time for the meetings.

Marketing, grading, candling, and packaging are a few of the topics scheduled for the first day. In the

## Society Elects Junior Members

### Thirteen New Members of Honorary Military Club

Charles Bianchi Becomes Next Year's President; Watson Adams, Vice-President; Bradley Cooper, Treasurer; and Theodore Fish, Secretary

Thirteen of the present members of the Junior class were elected recently to form the next year's membership of Scabbard and Blade, local chapter of the national honorary military fraternity, out of which number were also chosen the four officers for the coming year: Charles Bianchi, captain or president; Watson Adams, first lieutenant or vice-president; Bradley Cooper, second lieutenant or treasurer; and Theodore Fish, first sergeant or secretary.

Bianchi is a member of the Kappa Sigma fraternity, a prominent football player for the University, and comes from Worcester, Mass. Watson Adams is a commuter from Exeter and is taking the course in electrical engineering. Bradley Cooper comes from Lincoln and is a member of Tri Gamma fraternity. Theodore Fish comes from East Kingston and is prominent as a manager of athletics.

The following men have been named as members of the society for next year: Justin Flanagan, Charles Bianchi, Wade Roberts, Leonard Hinckley, Cristy Pettee, Bradley Cooper, Elwyn Southmayd, Warren Gee, Merle Patenaude, Theodore Fish, Theodore Minah, Fiore Campana, and Watson Adams.

## MASK AND DAGGER PLAYERS WIN PRAISE WITH "MINICK"

### Wilmot Smith Interprets Leading Character Role of "Father Minick" With Great Skill

Miss Phyllis Glazier Excellent as "Nettie Minick"—Entire Production Shows Careful Work on Part of Characters and Technical Directors—Professor William G. Hennessy Deserving of Much Praise for His Direction of Spring Play

## PHI SIGMA'S TAKE ANNUAL SPRING TRIP

Climb Mt. Chocorua by Two Trails—Camped Out at White's Pond—Twenty-eight Go On Trip

Phi Sigma, honorary zoological fraternity, took its annual Spring trip Wednesday and Thursday, May 29 and 30. Professor C. Floyd Jackson was in charge of the trip assisted by Harry Tounge, '30, chairman of the transportation committee, new president of the fraternity, and Eleanor Sheehan, '30, new vice-president of the fraternity, chairman of the food committee. The party slept at White's Pond where they camped out. Early the following morning, divided into two groups, having reached the foot of Mount Chocorua by motor, the members and their friends set forth to climb the ascent 3,540 feet above the principal water-shed in New Hampshire. By Piper Trail and Hammond Trail the climb was made. The party reunited at a hut a quarter of a mile from the summit where they lunched. The party consisting of about twenty-eight returned Memorial Day afternoon having picnicked, bathed, and camped out.

Mask and Dagger of the University of New Hampshire presents "Minick," a transcript of American life in three acts by Edna Ferber and George Kaufman.

CAST  
Lil Corey, Miss Celia Williams  
Nettie Minick, Miss Phyllis Glazier  
Annie, Miss Florence West  
Jim Corey, Mr. Robert Augustinus  
Fred Minick, Mr. Paul Kirvan  
"Father" Minick, Mr. Wilmot Smith  
Al Diamond, Mr. Wallace Nelson

Mr. Price, Mr. Francis Robinson  
Mrs. Smallridge, Miss Florence Brown  
Miss Crackenwald, Miss Mary Lovell  
Mrs. Lippincott, Miss Gertrude Nye  
Miss Stack, Miss Eleanor Harris

The Mask and Dagger players of the University again scored with the University audience with their presentation of "Minick." This delightful modern production, replete with touches of comedy and pathos was ably presented by an exceptional cast. No bit of finesse was too unimportant for the University players to regard, and they consequently presented a production worthy of a professional cast, and one that only serves to carry on the high plane of dramatics already at this University.

Wilmot Smith as "Father Minick" was the outstanding character of the production, and the part was excellently handled by Mr. Smith. His characterization made you love the old gentleman, and realize at the

### SAYING GOODBYE

We are sorry to find ourselves at the close of the college year. Sorry for several reasons. First it is necessary for us to say goodbye to the members of the senior class. We will avoid here all the pangs of heart-felt goodbyes and simply wish them good luck! No "thobbing" for us. We don't believe in it. Second we must bid "fond adieu" to our underclass friends, wish them the proverbial "good summer" and go on our respective ways. This also is hard to do. We really have been having a glorious time in our association with them, and now it must cease for four months. Saying goodbye to classes and studying is easy, but we are always glad to get back to it in September.

Another year will see new faces. Students and faculty members will have passed on in that endless collegiate procession. Leaving as we do within the next few days we leave a multitude of questions "in the air" so to speak that we really wish were settled. Did we pass that course? Did George Cozey graduate? Will there be any Horizontal Club next year? How about this automobile question? Will there be any action on the proposed Organizations Building? We will find out at some future time, just when we don't know, but it will be soon enough. Between now and then we will follow various pursuits with more or less pleasure. Some of us will disport ourselves with the thermometer registering 128 in the shade at Fortress Monroe, Virginia. Others will climb the sand dunes at Camp Devens. Still more will be fortunate enough to enjoy life among the sand fleas at Winnepesaukee, Hampton Beach, Old Orchard, Wells, Sunapee or what have you. There will be golf, dances, parties, bridge, work (this last is always present) and an endless array of pleasures. Some of us will return here in September with a skin so tanned that we could easily be mistaken for Tarzan. Most of us will be far more tired than we are now and will welcome the opening of the college year as a chance to get a little rest.

It really is a "great game" isn't it, this thing called life. No one has been able to find out just where it leads us, but we are willing to follow along and find out. That is about all we can do; we have little choice in the matter. At times we wish we were really radical and could break away from it all. Where would we go? I don't know! You can't get away from it.

Obviously I have been wandering far away from my intended path in this little bit of raving. Who knows, though, this bit of nonsense may be a sermon to someone. Perhaps it is a philosophy of life in disguise. Maybe I have gone mad. No—it's summer and I'm simply saying goodbye!

### PLEDGING NOTICE

Delta Delta chapter of Alpha Tau Omega takes great pleasure in announcing the pledging of Elmer Akeson, '32, of Worcester, Mass.

## E. J. Rasmussen Presents Thesis

### Result of Two Year's Horticulture Research

Findings of Experimentation Brought Forth in "The Period of Blossom Bud Differentiation in the Baldwin and in the McIntosh Apple"

Edwin J. Rasmussen, a student in the Graduate School at the University of New Hampshire, has completed two years of research in the department of Horticulture and presents his findings in his thesis entitled, "The Period of Blossom Bud Differentiation in the Baldwin and in the McIntosh Apple."

Mr. Rasmussen received his B. S. degree from the University of Wisconsin in 1927 and will receive his M. S. degree from New Hampshire on Commencement Day, June 17.

Besides his major work in the Department of Horticulture Mr. Rasmussen has minored in the Department of Chemistry. A brief outline of the work done by him on his problem is as follows:

Previous work done on blossom bud differentiation by Goff, Drinkard, Bradford and others, has been to study when differentiation first takes place, when the parts of the flower (sepals, petals, stamens, and pistil) first make their appearance, and the difference in time of formation in different varieties. The purpose of this piece of work was to try to find out the length of time over which blossom buds were forming and when the majority of them differentiate.

Eight 40-year old Baldwin apple trees in their "off year" on the Horticultural Farm were selected from which to collect buds. Collection of buds was made every week beginning July 8 and continuing to October 27. Three each of the following types of buds were picked from each tree at each collection: Buds from non-fruited spurs from low branches, buds from spurs which had fruited the previous year or the year before, from low branches, buds from non-fruited spurs from top branches, and buds from spurs which had fruited last year or the year before from top branches. Care was taken to select buds which were most likely to form blossom buds.

Twenty-five 15-year-old McIntosh trees in Gowen Brothers Orchard, near Exeter, were selected from which to collect buds. The buds were collected at ten-day intervals, beginning July 18 and continuing until October 30. Two buds of each of the following groups were picked from each tree at each collection: Buds from spurs on 1927 wood, buds from spurs on 1925 wood which blossomed in 1928 but did not set fruit, and buds from spurs on wood older than three years which had borne fruit or blossomed previous to 1928.

The outer scales were removed from the buds when picked, and the buds were preserved in an alcohol-formalin-acetic acid solution until sectioned. The Baldwin buds were sectioned on a rotary microtome while the McIntosh buds were sectioned free-hand in pith. The free-hand section method was found to be the quicker and easier when too much detail was not required.

In the Baldwin variety no flower differentiation could be observed in the collection of July 29. Flower bud formation could be observed in the buds collected August 7. By August 14, 31 per cent. of the buds showed flower formation and the proportion of flower buds did not increase materially after that date. Accordingly, it appears that all spurs on these trees which were to form blossoms in 1929 did so between July 29 and August 14, a relatively short period.

With the McIntosh differentiation occurred over a very similar period, but about 7 to 10 days earlier in the season.

### SUPERINTENDENTS CHOOSE TEACHERS OF STATE SCHOOLS

During the past few weeks, many superintendents and educational leaders have been in Durham for the purpose of securing teachers for the various secondary schools in the state. The Education Department of the University is co-operating with these officers in placing the teachers who are needed.

Among the superintendents who have been on campus recently are: H. Laughton Chase of Peterboro, New Hampshire; Howard Winslow of Somersworth, New Hampshire; Harold Bales of Milford, New Hampshire; P. H. Barrett of Littleton, New Hampshire; Raymond Kendall of Colchester, Connecticut; C. R. Larcomb of Colchester, Connecticut; A. W. Greer of Weathersfield, Connecticut; Frederick Johnson of Marlboro, New Hampshire; Leonard Morrison of Whitefield, New Hampshire.

### EAST OF THE WATER TOWER

By Ellen J. Farley and Enzo D. Serafini

Well folks, this is the last issue of the good old New Hampshire for this year. It will probably be the last one that some of you will read too. We don't mean only seniors either.

The baseball team certainly showed the old Wildcat spirit the past week. More power to you Henry.

We understand that the Alpha Xi's are charging the frosh \$50 for damages sustained on certain evening gowns in the egg-throwing contest. How about the men's clothes that they borrowed?

Imagine the year over and one individual hasn't "got" anybody for calling him Doughlawf.

There's a "New Hampshire" sticker on the rudder of the "Yellow Bird." Who put it there, no one knows. But here's hoping that it gets across.

What did the Mil Art encampment prove? The general consensus of opinion seems to favor an out-of-tent encampment. And how!

Where did everyone go on Memorial Day?

**WEEK-END**  
 Week-ends were made for fun and frolic.  
 But how can I have fun and frolic,  
 When you're far away?  
 Mary. R. C., '30.

**A COMPARISON**  
 I saw a pretty girl come in a gay dance hall.  
 Her skin was dark and powdered velvet-like.  
 Her hair was black and drawn straight back, as grass is blown before a storm.  
 She was tall, taller than most.  
 She wore a dark green dress of simple lines, with just a touch of fluff upon her hip.  
 She stood a moment framed in the club door.  
 Turned an instant to her escort,  
 Then flicked across the floor.

That day I'd scared a water moccasin from his sun-bath upon a rock.  
 He uncoiled and struck twice at my prodding stick.  
 A glistening streak of black and brown.  
 Then slithered through the grass into the meadow muck-hole just in front of me.  
 And hid behind a hummock in the middle of his home.  
 Oh lovely snake!  
 Didge.

Did you hear about the grand furor on the Concord trip when someone noticed an apparent inmate wearing a fraternity pin? Now that it's been ascertained that she was a secretary, there's no harm revealing that it was an S. A. E. pin.

Did you see the Kappa's asleep under the palms one hot morning last week? Palms for piety, you know.

One Major Rhodes visiting during the Mil. Art. Encampment was amused to see the scouts, who were supposed to be searching for the enemy, bend over constantly and pick the little blooming spring flowers. Now if that had been an horticulture class, everyone would rather have been hunting the enemy. Why are people like that?

**SETTLED AT LAST!**  
 By Alpha Xi Delta's, May 29, 1929 at 1:15 A. M.  
 From philosophers and scientists  
 This truth we used to beg:  
 Can you tell us what comes first,  
 The chicken or the egg?

But never will that argument Annoy us more, forsooth,  
 Thru experience that came one night  
 We learned the sticky truth.

From information of sure proof,  
 Tho' scientist's not the name,  
 We know the chicken and the egg  
 Together—absolutely—came!  
 D. P. J., '30.

Have you seen the Student Writer and bought your copy? The results of the Intercollegiate Contest and the calibre of the work in the Writer show that we have talent on this campus. And we should support it. The Writer's as good as any current magazine so far as entertainment goes, and better than most of them so far as the quality of work. Buy your copy and be proud of it.

From all appearances school is not going to end with a bang this year as it did last. remember when the Golden Bull came out? Not much difficulty in selling that.

And some of the seniors are kicking about whom they have to march with

## WHEN WE WERE VERY YOUNG

From the issue of March 9, 1918:  
 "New Hampshire closed its basketball season last Wednesday night, March 6, by defeating Dartmouth for the first time in the history of the college, at Hanover, 22-17. This defeat of the Green by New Hampshire was the 22nd straight loss. This game marked the eighth win of the season for New Hampshire which when compared with three losses shows a very successful season."

From the issue of November 10, 1917:  
 "If at first you don't succeed, try again" is the ancient maxim which the sophomores and freshmen learned from bitter experience Tuesday night, on the occasion of the attempted pictorial contest, which is one of the traditional class "Scraps."

The trouble started when it was discovered that Butler, president of the Freshman class, had been shanghaied by four Sophomores in a flivver. Then it was discovered that certain rules laid down by the Student Council had not been lived up to by the class of '21, and that other rules were so vague, that everything or nothing was possible. By the time that a decision handed down informally by the officers of the Council had succeeded in convincing the sophomores that the contest would not count, Butler was having the time of his life. A rapid trip to Epping, via the county farm, was the main feature of his program. It is said that because of his position in the bottom of the car, his observations were limited and his vocabulary eloquent.

In Epping, with the help of several sailors, whose appearance the sophomores respected after a scrap, Butler succeeded in making his escape, thus narrowly missing a free trip to Manchester, where he was to make an extended visit, according to reports.

Finally reaching Newmarket, Butler telephoned to Durham for reinforcements. Meanwhile, the Freshmen, not sure that the contest was nihil, had been making stealthy attempts to get to their mecca, Newmarket. Some even jumped from the second story of Fairchild Hall; others spent the night in the woods, a la "Joe" Knowles.

Sometime in the forenoon of the seventh, '21's forces, augmented by a score or more of co-eds, were collected in the nearby town, determined to have the picture taken and thus play safe. After a pleasant afternoon spent at a specially provided movie show and dance, the long desired picture was taken, the object was attained, and the Freshmen came home en masse, to learn that "it didn't count." They claim it did "for a whole lot of reasons." As the powers that be have ruled differently, another try will probably be made, with sounder rulings to go by.

From the issue of December 11, 1912:  
 It has been formally announced that a pool and billiard tournament is to be held in the college club rooms in the near future. Twenty-five point pool and twenty-five point billiards will be played, and suitable prizes will be awarded the four who prove most proficient. The final four men will be selected by a process of trials and gradual elimination. The exact date will be announced later, and the tournament will be limited to members of the club in good standing. Those wishing any further details may inquire of "Bo" Jenness, "Smooch" Smart, "Chiper" Parker, or "Ty" Cobleigh.

### NOTICE

All students interested in summer employment, gross earnings of \$250 for nine weeks, see J. J. Hensle at the Y. M. C. A. office Thursday or Friday.

...do they think that the college authorities know of their "suppressed desires?"

**OH, REALLY**  
 I ask you now, my puzzled self,  
 What can you do, oh, tell me true!  
 When, raised to passion's alpine peaks,  
 You say, "I love you—ah, I do,"  
 And your lady answers thus, "Oh, really?"

You speak of future happiness,  
 The perfectness of life for two,  
 And castles spring aloft in Spain  
 (Oh, yes, my son, you know they do);  
 And she merely answers thus, "Oh, really?"

But undeterred, your ardor strong,  
 You broach the subject of her charms;  
 Her hair, her eyes, her lips entrance  
 The while you rest within her arms,  
 Again to hear her whisper thus "Oh, really?"

Oh, Raven of the "Nevermore!"  
 Or other bird of fluent speech,  
 Won't you—I humbly do implore—  
 Won't you benevolently teach  
 My lady something else besides, "Oh, really?"  
 D. M.

This week marks our last efforts in behalf of the Water Tower. We hope that we have succeeded in alleviating some of your duller moments. In case you have been offended, we apologize, for it was all in the spirit of fun. So long, have a good summer, and the rest of you, we'll see in the fall—when we have had a long rest and will be all set to start in anew.

E. J. F. & E. D. S.

## FROM OUR MAIL BOX

To the Editor

It has come to my attention through the newspapers the deplorable status of the university and college students throughout the United States.

Liquor stories, illicit news love stories, suicide stories, and missing student stories seem to glare at the American citizen as he reads the leading headlines in our best morning newspapers. What has happened to our college students today? The huge increase of students going to college now appears to justify some exceptions that appear in newspapers. To me this answer comes from the moderate conservative group in our college or community. The extreme conservative solution to the problem would be to discipline those evil doing students. The radical group would say change the curriculum.

Has our college escaped these evil doings that appear in newspapers? Look at this, they have appeared in a newspaper and people have called them exceptions (very unusual or the stuff you cannot believe because it was in a newspaper). "Durham Coded Elopes with Bay State Lover," "Marry between Fox Trots," "Durham Hard Hit by Colds and Flu," "Students Raid Post Office," "N. H. U. Men Whoopie," and "Halt N. H. U. Hazing," are news stories from our college town that have appeared in a newspaper. Are they true stories? You can answer that as well as I can.

After that last paragraph our college seems to be a typical university. It ranks with the rest of the sensational universities in spirit and once in a while in the newspapers.

Let's follow the trend of some students in our most honored of honored college institutions in New England. "Snoopers" for the United States Government (for prohibition work) have been picked for service from Harvard and Brown. The newspapers also liked to play this up. The President of Brown University was quoted to have said that students can find "nobler ends" to make money. Let's hope so but we are still hoping a better position regardless of how old we are or what kind of a job we have.

To get back to our own campus, we have what you might call the beginnings of a snooper. He is a news monger and he likes exciting stories. Ask him why he is writing stories like that, his return will be for money. What will you do when you leave the University? Work for money, for your health, for your wife, or work to live and be happy?

What is the solution for students in college who have the restless spirit that may make them crooks, snoopers and otherwise detrimental to social welfare? I appeal to the faculty to answer that question. Could our teachers teach us how to live as well as how to get a degree? What is more profound in thought than what has happened in the past and its relation to the present and the future. To teach us students how to live and be happy is what one professor described as a plan for a Utopia college. O! Worthy professors do you realize what the progressive colleges in the United States are trying to do? As far as I can figure out, they are trying to show us how to live in an adjustment with the rest of society. All right professors, swallow this new idea with Latin, French, Spanish, Mathematics, Chemistry, Physics, Zoology, Botany, Geology and others; it cannot be done.

An aspiring "Teddy" Roosevelt

### DANCING CLASS BALL IN BIG GYM TOMORROW NIGHT

No further announcements regarding the University Dancing Class Ball have been made during the past week. The dance will be held in the men's gymnasium tomorrow night from eight till eleven, with music by the Kampus Kut Ups' orchestra.

Four prizes will be awarded in two competition dances, two to the man and woman winning the contest for the advanced group, and two for the couple winning the competition for the beginners' group. The judging committee is Mrs. Elizabeth DeMeritt, Dean and Mrs. Alexander, Prof. and Mrs. Starke. The prizes are four loving cups offered by Prof. Loughlin, the dancing instructor.

### MANY ENTHUSIASTIC OVER LACROSSE AS NEW SPORT

Lacrosse, introduced on this campus for the first time this spring, has met with considerable enthusiasm. Originally intended as a substitute for spring football practice, the sport drew many other athletes as well, and was given for physical education. It is hoped that it may eventually be made a regular varsity sport. Many Eastern colleges have already adopted the game which originated among the Indians. The interest is evidenced by the fact that Harvard offered to send one of its teams here to scrimmage with a Wildcat team. At Harvard there are both varsity and freshman teams.

### MISS ELEANOR PICKERING RESIGNS SECRETARYSHIP

The resignation of Miss Eleanor Pickering, secretary to Dean French of the Liberal Arts college, has been accepted by the administration to take effect June 12. She was, according to Dean French, a very efficient assistant whose services will be very much missed by her associates. Miss Pickering, after a summer spent as hostess to the Portsmouth Historical Society, will go to Boston where her future is at present undecided.

### ALPHA CHI OMEGA HOLDS TEA AT CHAPTER HOUSE

Alpha Tau chapter of Alpha Chi Omega gave a tea at their home on Madbury Road Wednesday, June 5, from four to five o'clock in the honor of Mrs. A. Foster Gilmore and Mrs. Adrian O. Morse, patronesses of the fraternity who are resigning. Invitations were sent to Mrs. Ritzman, Mrs. Richards, Mrs. Leavitt, Mrs. Phillips, Mrs. Johansen, and Mrs. Laton. Mrs. D. F. Heywood poured. Yvonne Beaudry was chairman of the committee in charge.

 Phyllis Haver, Raymond Hatton  
 Pathe Comedy—"TAXI SPOOKS"

WILDCAT TEAM STATE CHAMPS  
(Continued from Page 1)

They were consistent in their batting and base running by scoring at least a single run in all except three innings.

In more ways than one the state championship game was an unusual one. Don McFarland, playing his usual left field station in exceptionally fine style, made more put-outs than did any other individual player on the Wildcat team. In fact, with one exception, he spoiled the efforts of at least twice as many of the opponents as did any other player. This shows the day was a busy one for the outfielders. Although McFarland was kept on his toes throughout the excitement, he kept his record clear of errors in spite of the fact that most of his catches were made in pursuit of difficult flies. The remark was made by one of the officials at the game, who is known as a veteran baseball authority, that McFarland is one of the smoothest fielders he has seen. Charles Hanna and Dick Tilton likewise did their share toward stopping the heavy hitters.

John Small played a strong all-around game with five put-outs including an unassisted double play. He scored two runs for New Hampshire as did Redden and Flynn. Redden's three-base drive was another feature performance with the hickory club. He registered three hits from his five times at bat, holding the same batting average as Flynn. John Shea was at bat three times and produced two hits.

400,000 PINE TREES  
SET BY 4-H MEMBERS

Total Number Planted This Year Exceeds Combined Total of Three Years—Trees Distributed Through Efforts of New Hampshire Forest Nursery Extension Service, and Smith-Hughes Teachers

Approximately 400,000 pine trees were planted in New Hampshire this spring by 800 4-H boys and girls. The trees were distributed through the cooperative efforts of the New Hampshire Forest Nursery, the Smith-Hughes vocational agricultural teachers, and the Extension Service. The Society for the Protection of New Hampshire Forests will give books as prizes to the boys and girls under 16 who do the best tree planting jobs. Everyone planting trees is eligible to membership to the American Tree Association under a special provision of the association this year.

In the last three years 350,000 trees were planted in the state. The offer this year of free trees is largely responsible for the year's total exceeding that of the three previous years combined. Boys and girls under 16 were allowed 250 trees, and those between 16 and 21 were given 500 trees. Requests were handled by the county club agents.

This number of trees, according to K. E. Barraclough, extension forester, would plant a solid block of 400 acres, and, if properly cared for, would yield 15 million board feet of white pine lumber in 50 years.

## ALUMNI NEWS

Ex-28—Frank Horne is investment salesman for the Kidder, Peabody Co., operating from their branch office in Portland, Maine.

Two-base hit, Harvey. Three-base hit, Redden. Home runs, Flynn 2, Rolfe. Stolen base, Parker. Sacrifice hits, Dawson, Shea. Double plays, Walsh to Stokes to McDonough, Small (unassisted). Left on bases, Dartmouth 8, New Hampshire 5. Hits off Hollstrom 8 in 5 innings (0 out in 6th), off Rolfe 3 in 4 innings. Base on balls off Hollstrom 2, off Jablonowski 6, off Wolff 1. Hit by pitched ball, by Jablonowski (Booma) by Hollstrom (Shea). Struck out by Hollstrom 1, by Jablonowski 2, by Wolff 3. Wild pitches, Jablonowski. Passed balls, Andres 2. Umpires, Kelleher and Couture. Time, 2 hours, 6 minutes.

## Alumni News

Alumni Office, June 6—Well, this is the last appearance of this column for this season. We will greet you through this medium next fall, when another active campaign for alumni support of New Hampshire will get under way. We have enjoyed talking to you in this "chatty" way, and we have been pleased to tell you of your friends and of their doings. As we had planned, the alumni are getting the habit of direct contact with the Alumni Office, and we are now getting much more news of alumni than was secured by the old method. Nothing wrong with the old method, you understand, it was just a system that had to be used due to lack of time and money. Sort of better than nothing, and we have often wondered how those past secretaries did so much effective work.

Well, see you on Alumni day! And after that, we wish you all a mighty pleasant summer, a good vacation, and plenty of health for continued and increased success during the next season. Good luck!

1924 Marion Page is located at the Y. W. C. A., corner Park and Franklin streets, Baltimore, Md.

1925 Elizabeth O'Kane is assistant buyer of millinery for the E. T. Slattery Company of Boston, Mass. She lives at 30 Bartlett Crescent, Brookline, Mass.

1924 Philbrook R. Butler is with the R. C. A. service station at 150 Peters street, Atlanta, Ga.

1925 Mr. and Mrs. Irving T. Hersey have changed their address in Chicago to 7122 East End avenue, Windsor Sta., Chicago.

1924 L. H. Kenney, '99, secretary of the very active Philadelphia club has sent us a notice of the receipt of invitations for the wedding of Leslie R. Bacon to Miss Isabelle B. Bradley on June 15.

1921 Ruth Colburn Weston has been elected County Club Agent for Cheshire County in the University Agricultural Extension Service.

1926 Robert Folsom, who receives his Master's degree in Education from Columbia this week, will teach next fall in the high school at Belleville, N. J.

1926 Beatrice Britton is head dietitian at St. Elizabeth's Hospital in Washington, D. C.

1926 Elliot E. Grover is chief mechanical engineer in Sharon, Pa., for the Westinghouse company. He is working, at present, as chief consultant mechanical engineer on power transformers and tap changing under load equipment.

1926 Reginald W. Hartwell is a zoologist in Rochester, N. Y., with Ward's Natural Science Establishment, Inc.

SPHINX NAMES OFFICERS  
FOR ITS SUCCEEDING YEAR

At the regular meeting of the Sphinx, honorary Sophomore Society, the following men were nominated for officers for the coming year: President, Henry Stenberg and Waldorf Bartlett; Vice-President, Charles Wilson, Philip Prescott, and Robert Greene; Secretary, Jean Moreau, Carlton Noyes, Lawrence Henderson, Ralph Dodge, and Benedict Kerr; Treasurer, Laurence Barker and Almon Lord.

A special meeting will be held tonight to elect the new officers.

Professors Plan  
Research WorkGeology Instructors to  
Engage in Summer Work

Mr. Meyers to Do Summer Field Work in Missouri—Mr. White to Prepare Bulletin on Geology of Holmes County, Ohio

T. R. Meyers and G. W. White, both of the geology department of the College of Liberal Arts, will be engaged in research work during the summer.

Mr. Meyers will spend the greater part of the summer in paleontological and stratigraphical research in an area in southeast Missouri. The latter part of the summer he will use in paleontological research in southwest Ohio and northern Kentucky in the region of Cincinnati, Ohio, and Covington, Kentucky. It is expected that many specimens of Paleozoic invertebrates will be added to the University's collection by Mr. Meyers' efforts.

Mr. White will finish the field work for a bulletin of the geological survey of Ohio, on the "Geology of Holmes County, Ohio." He has been working in this area of 483 square miles in northeast central Ohio for the past two summers. The research is mainly of stratigraphic and economic character, the region containing important coal and clay deposits, besides presenting geological phenomena of unusual interest. Mr. White's official position in the summer is assistant geologist on the "Ohio Geological Survey."

## ALUMNI NEWS

1928—Mr. and Mrs. Philip C. Greaves announce the marriage of their daughter Evelyn to Leopold B. Blum, Jr., of Brooklyn, N. Y.

DOUG FAIRBANKS' LATEST  
HAS A ROMANTIC SETTING

Douglas Fairbanks is to the screen what David Belasco is to the stage, the master of fidelity to detail. But Mr. Fairbanks has one great advantage over Mr. Belasco. The limits of the screen are boundless all the world offers itself to the eye of the camera, while the effects of the theatre are confined to the stage.

In his newest United Artists Pictures, "The Iron Mask," which is coming to the Franklin Theatre Monday, June 10, Mr. Fairbanks has spared neither time, money nor effort in securing the adherence to detail which he demands. Five hundred workmen spent three months constructing the village and palace of St. Germain. Expert stonemasons laid the cobble stones of the streets and courtyards according to the seventeenth century pattern. Whole trees were transplanted and flowering rose bushes were trained to twine themselves about the time-blackened timbers of the village dwellings.

The huge fountain in the public square was built in exact duplication of one of the famous fountains of the seventeenth century, and was so constructed that real water poured from its massive front. Every detail of the French village was real, from the weather vanes which swayed with the wind on the peaked roofs, to the vegetables in the market stalls. The courtyard of the palace of St. Germain was the largest set of its kind ever erected for a screen production. The ground it covers was more than twice that of a large city block and its stone walls towered two hundred and fifty feet in the air. The massive doors of the castle were carved by hand by skilled workmen, and the polished floors of the royal chambers were laid by masters in the art of parquetry. Even the tapestries on the palace walls were made in perfect reproduction of museum pieces of the wall coverings of the period of Louis XIII.

Months of careful research were spent in perfecting every detail of the accurate realism of "The Iron Mask," and Mr. Fairbanks was aided in his efforts by M. Maurice Leloir, the world's greatest authority on seventeenth century manners and customs. Mr. Fairbanks' demand for the realistic extends to himself. He employs no double in even the most hazardous of his scenes. During the screening of "The Iron Mask," he risked his life in dozens of daring stunts. He proved once more that the name Fairbanks was synonymous with grace, agility and bravery, and performed the most breath-taking feats of his career. An expert swordsman, Mr. Fairbanks engaged the services of the champion fencer of Belgium, Frederick Cavens, so that the sword play of himself and his musketeers and gentlemen of the court might bear the stamp of the genuine.

When you see "The Iron Mask," you will be watching the real life of the seventeenth century, life as it was really lived in those stirring days of two Louis', father and son.

## INTERCOLLEGIATES

## Ford Proves Leader

Among Campus Cars  
One hundred and three students are driving cars in Hanover this spring. Last year at this time there were only 65 registered at the Dean's office. There are 47 seniors who are car owners, 33 juniors and 23 sophomores.

Henry Ford has the edge over General Motors on campus, there being 35 Fords and one Lincoln, while the total number of General Motors cars is 34. Of this total 12 are Buicks, 10 are Chevrolets, and there are four Pontiacs and four Oldsmobiles. Two Cadillacs and two La Salles complete the number. Nine men drive Chryslers, three own Packards, and there are one or two representatives of Pierce Arrow, Franklin, Nash and Dodge.

## New Club Formed

A "woman-hater" club has been organized at the University of Denver. Members of this select organization must never be seen conversing with a woman, save for necessary business, and all dates with the fair sex are out of the question. Each member of this unique society is known by a red button worn in the lapel.

A student at the University of Washington was suspended recently on a charge of book mutilation in the university library. It seems he found no magazine in the town libraries suitable for his class assignment and he thus mangled a periodical in the students' library. His suspension, however, brought forth a defensive statement in his behalf from the Dean of the library staff who stated that teachers should be more discreet in assigning work of this nature to students.

In answer to a vocational questionnaire at Ohio Wesleyan only two coeds stated that they intended marriage as their career upon graduation.

A two hundred-inch telescope was recently donated to California Tech. When completed it is said that it will bring to view many millions of unseen stars. Incidentally the telescope will be the largest ever made.

Things were becoming dull for the University of Penn students so 500 of them took complete charge of a signal light at a street intersection near the campus. Naturally it wasn't long before traffic was in a beautiful mess and when the reserves arrived from headquarters they were met with a storm of milk bottles thrown by the "fun-loving Rovers."

Married students can no longer pursue their studies at Washington and Jefferson. It was decided recently that marriage is a great hindrance to proper study, especially at that institution.

Character and personality will be a requirement hereafter for admission to the University of Syracuse. Besides displaying a reasonable mental capacity, those seeking entrance must have the proverbial tooth paste advertisement smile!

The University of Oklahoma has the only crude oil refinery on any college campus. It is open for use by the students of petroleum engineering.

"Unless hazing is discontinued at Texas A. and M. College the doors of the institution will close up," states a member of the board of regents at the college.

"A big man for a big job," at the University of Maine where the president of the freshman class only weighs 318 pounds.

Here's the way they work it at Oxford! Three terms of eight weeks each a year, with a six-weeks' vacation at Christmas and Easter and a summer vacation of three months. The classes are not compulsory, and at the end of two years the student's grade is based entirely upon examinations. Now figure out when they go to classes!

Get a whiff of this! Onion eating is the latest fad at the University of Georgia. The students hold parties at which various colored onions are consumed. One of the students states, "I owe everything to Bermuda onions as I was weak and run down before eating them."

The R. O. T. C. Masses  
The spectacle of mass performance, in which the individual is lost, and

We Have Nothing to  
Sell, Buy or Rent

Goods Called for and Delivered. Telephone 403

the display of proficiency in marching, accompanied by martial music, invariably move our admiration. As a matter of fact, we almost lose our naturally acquired aversion for compulsory drill when we witness a military exhibition. It is on such occasions as Field Day and Memorial Day that the Penn State R. O. T. C. wins the approval of onlookers, and the damning of gun-toters. Likewise, these pompous reviews again raise the ever-recurring compulsory drill issue, which was the target for sharp verbal missiles during the recent student elections.

A careful analysis of student opinion on the matter leads inevitably to these conclusions: that to a large number of underclassmen drill is a farce; that the comparatively few who are interested in drill—and their numbers might be increased if the compulsory element were abolished—are deprived of their rights by the indifference of the protesting majority; and that the College is required merely to offer a course in military training. The College knows as well as we do that the terms of the Morrill Land Grant Act do not make drill compulsory.

There are, on the other hand, two strong arguments on the side of compulsory drill: first, that it is disciplinary, and second, that it provides exercise. Discipline, to our mind, is commendable, but not at the expense of utter disregard for a recognized military institution. Then, too, there is the well-established fact that anything compulsory is odious to college students. Compulsory chapel is the accepted proof. The question of exercise, in our opinion, is negligible in the final analysis. Shifting from leg to leg during roll call, hour upon hour of slouching drill, and a continuous repetition of the manual of arms is not the kind of exercise that is profitable. Exercise, to be profitable should discourage the practice of seeking medical excuses on the appointed days, and likewise, should be engaging enough to discourage a close and almost perpetual scrutiny of Old Man clock.

From the "Penn State Collegian"

TECH STUDENTS TO WORK  
FOR B. AND M. AT BILLERICA

The Boston and Maine railroad has recently been added to the list of concerns furnishing cooperative work for technology students and already three juniors have planned to take their work there. They will report to the shops at Billerica, Massachusetts, after the close of school. Those taking the work are Hrant Gulumian, Stanley Szlosek, and Thomas Tomasian.

HOWARD GEORGE ELECTED  
PRESIDENT OF GLEE CLUB

At the last meeting of the University Men's Glee Club the officers for next year were elected. Howard George, '30, of Manchester will be president. Next year George will be manager of Varsity Cross Country. He will be remembered in the role of *David* in *The Rivals*, the fall term production of Mask and Dagger. Walter S. Jenkins, '31, of Goffstown, will be manager of the glee club. He is a member of the Theta Upsilon Omega fraternity and is prominent in musical circles on the campus. Oscar L. Vaughn, '31, of Portsmouth will act as assistant to Mr. Jenkins. The librarian for the year will be Granville Shattuck, '31, of Granby, Connecticut, who is a member of Delta Pi Epsilon fraternity. Stephen T. Crowther, '31, of Derry, will be assistant to Mr. Shattuck.

## HOME ECONOMICS NOTES

The Home Economics Department held a May Party Wednesday afternoon, May 29, in President Lewis' garden, for the kindergarten children. Mothers and fathers were invited to attend, and also the parents of children who are expecting to enter the kindergarten next year. Songs, games, and contributions of the "Kiddies' Orchestra" constituted the entertainment. Later in the afternoon, Mrs. Lewis served refreshments. Everyone seemed to have a very enjoyable time, and we hope that the Home Economics Department will be equally successful in its future undertakings along this line.

OLD BOOK AND ETCHINGS  
ON EXHIBITION THIS WEEK

The library has on exhibition for ten days a collection of prints and etchings belonging to Prof. J. C. Herring. Prof. Paul Grigaut is also exhibiting an unusual book, "The Cosmography of Munster," 1578. This book is filled with distinctive and very interesting maps.

RUTH HORNE NEXT FALL

Miss Nellie E. Pottle, who is at present working toward a Master's degree at Yale university, has accepted a position as instructor in English at this university for the coming year, filling the position left vacant by Mr. Sylvester, who left at the end of the fall term, and Miss Ruth Horne, who replaced him. Miss Pottle is a graduate of Colby college in the class of 1925 and has had three years of teaching experience in high schools.

## AN IDEAL COMMENCEMENT GIFT!

When you're looking for a commencement gift that will be appreciated for years to come, we can assure you that any senior would welcome a pair of the new UNIVERSITY BOOK-ENDS or a UNIVERSITY SHIELD. When the graduate takes his place in the world of business or in the professions, the dignity and distinction of these quiet reminders of his alma mater are at once apparent.

UNIVERSITY SEAL JEWELRY, pillow-tops, and banners make excellent gifts. May we help you in your selection of something appropriate for the graduate?

## THE UNIVERSITY BOOKSTORE

## HARD TO EAT NOW?

Doesn't anything taste right just now? Our University dining hall is trying to meet that problem. You need food that will give you the greatest energy for the last few weeks of the college year.

Salads and tasty dishes that just appeal to the springtime fancy will be available for your choice.

The 21-meal ticket (7 breakfasts, 7 dinners, 7 suppers, to be taken at your option) is fast becoming a favorite. The cost is low, too. \$6.00 Try one before college closes!

MASK AND DAGGER PLAYERS  
WIN PRAISE WITH "MINICK"

(Continued from Page 1)

same time that his position was a difficult one. The bits of paths in the part were well acted, and it is with regret that we see an actor of such ability leave the University stage. Mr. Smith's farewell production in Durham will long be remembered for its excellence.

In passing from this the leading role of the production we must accord the next honors to Miss Phyllis Glazier for her interpretation of "Nettie Minick." The intense struggle in the mind of "Father Minick's" daughter-in-law was superbly done by Miss Glazier. Her appearance was at all times one of ease. In this, her first Mask and Dagger appearance, Miss Glazier proved herself an actress of no small ability, and we will welcome her next appearance on the local stage.

Scenes rather than characters next identify themselves in their order of excellence. The scene between "Father Minick" and his two cronies "Mr. Diethofer," played by Ralph Brown, and "Mr. Price," played by Francis Robinson, was one of the outstanding bits of the production. These three old gentlemen added tremendously to the touch of realism that the whole production possessed. We only wish that Mr. Brown could have been seen in previous productions, for his work was excellent, and to Mr. Robinson we can only say that we feel sure he will carry on his good work another year.

The authors of "Minick" certainly knew the procedure of a Women's Club meeting, and the characters portraying this bit did it justice. Miss Florence Brown, Miss Mary Lovell, Miss Gertrude Nye and Miss Eleanor Harris deserve much praise for their able handling of their respective roles.

Miss Celia Williams as "Lil Corey" and Miss Charlotte Hirschner as "Marge Diamond" added to their already great reputation as capable actors. Miss Williams and Miss Hirschner can be especially complimented for their excellent stage presence and their ability to make voice inflection a vital part of a production.

The roles of "Fred Minick" and "Jim Corey" played by Paul Kirvan and Robert Augustinus, respectively, were well played. Although they seemed restrained at times Mr. Kirvan and Mr. Augustinus gave good performances. This was Mr. Augustinus' first performance with Mask and Dagger, and we predict a brilliant future for him in University dramatics. Wallace Nelson as "Al Diamond" did good work. As a typical "wise guy" he was excellent.

The servant problem was well brought out by Miss Florence West as "Annie" and Miss Madeline Pickwick as "Lulu." These comedy parts were well done by their portrayals. We are still wondering how Miss West could carry so many articles across the stage at one time, but regardless of this her portrayal was excellent. The same excellence was

## R. O. T. C. Holds Two-Day Drill

Sec. of State Presents  
Medals and Commissions

Sham-Battle and Formal Guard Mounting Demonstration Features of Period—Dow, Chapman, and Harriott Winners in Senior Competitions

Last Saturday noon brought to a close the activities of the University of New Hampshire Reserve Officers' Training Corps for another year following a two-day training period held on the campus the latter part of last week. During the hours devoted to military tactics a busy program was carried out, terminating with the presentation of commissions and medals of honor by Secretary of State Enoch D. Fuller who came to Durham for this purpose in place of Governor Tobey who was unable to make the trip.

One of the features of the two-day workout was the field problem which took place Friday afternoon, the infantry constituting the attacking force with the Coast Artillery in defense. Another of the interesting events was the demonstration of the ceremony of formal guard mounting by selected men from the C. A. C. battalions.

The following senior officers received their commissions as second lieutenants in the regular army having successfully fulfilled the advance requirements of the Reserve Officers' Training Corps in their four years of service:

### INFANTRY

Randolph W. Chapman, Groveton; Thomas W. Colby, Haverhill, Mass.; John D. Fleming, Flushing, N. Y.; William H. Mahoney, North Conway; Donald B. Harriott, Concord; Sylvester M. Parshley, Wolfeboro; John M. Manning, Durham; Arthur Gilbert, Somersworth; Paul J. Kirvan, Portsmouth; Robert J. Stark, Lawrence, Mass.; Ralph M. Garlock, Manchester; Robert O. Jennings, Winchester, Mass.; Clayton Allsworth, Bradford, Conn.; Eric L. McNab, East Andover; Randolph E. Churchill, Dover; John H. Dow, Lakeport; Reginald E. Gulliver, Needham, Mass.; Clarence E. Sprague, Concord; Norman H. Young, Rochester; Gordon F. Reed, Gorham; Jesse L. Stevens, Whitefield; John B. Evans, North Stratford; Lyle H. Farrell, Manchester; James D. Osgood, Pittsfield.

### COAST ARTILLERY CORPS

Edward H. Hunt, Exeter; Arthur J. Adams, Somersworth; Everett B. Moore, Keene; Warren G. Pinney, Springfield, Mass.; Edward N. Aldrich, Lancaster; Melbourne W. Cummings, Enfield; Joseph W. Langford, East Candia; Lloyd Atwood, Berlin; Kenneth S. Lane, Concord; George I. Tuttle, Limerick, Maine; Robert C. Adams, Gilsun; and Daniel J. Lucinski, Plaistow.

Medals for military proficiency were awarded to the three leading students in each of the four classes and likewise three special medals were awarded the winners of the sharp-shooting competition conducted in the freshman and sophomore classes in marksmanship. The sophomores winning the marksmanship medals were George Tuttle, Dover; John Gibbons, Dover; and Philip Qualey, Dover. The winners of the freshman competition were Joseph J. Whyte, Lancaster; Thomas A. Perkins, Gorham; and Nolan G. Hikel, Plymouth.

The medalists for the four classes in military proficiency were as follows: Freshmen: Thomas Perkins, Gorham; William Gibbons, Dover; and Robert Augustinus, Manchester.

Sophomores: John Gibbons, Dover; William Woodbridge, Laconia; and John Horrigan, Wakefield.

shown by Miss Pickwick, who had a difficult part to play.

It is often the opinion of theatergoers that one who reviews a play must necessarily find something wrong. In this I failed completely. The technical side of the production was well handled. The stage setting was exceptionally good for the small space in which it was erected. The "make-up" of the actors was well done, and it is a difficult thing not to overdo "make-up" on a stage that is so near to the audience.

To Professor William G. Hennessy of the Department of English go added honors for his direction of the production. Every detail of production was considered in "Minick" and the result was a performance of remarkable worth. Attention to detail and the "finish" which Mask and Dagger productions always have can be credited to the efforts of Professor Hennessy. Miss Marion Pearson is to be complimented for her efficient work as stage manager of the production.

P. H. B., '30

## KAPPA SIGMA PLAYS IN BASEBALL FINALS

Last Year's Champion to Meet Either Delta Sigma Chi or Theta Chi—Both Delta Sigma Chi and Kappa Sigma Have 1,000 Average

The intramural baseball season will soon be over and the championship determined for another year. The teams in the finals are Kappa Sigma, winner of last year's tournament, and either Delta Sigma Chi or Theta Chi. A game was to be played June 5 to determine which team was to oppose the Kappa's in a three game series, starting as soon as possible.

Kappa Sigma has won all three games that it has played by fairly good margins. The first game was taken from Alpha Tau Alpha by a large score. This game was featured by the hitting of the winners. The second game won by last year's champs was from Tri Gamma. In this game Paul Kirvan, big southpaw pitcher, allowed no hits or runs, a trick he again turned last Monday when his team won from Theta Upsilon Omega, 6-0. In this latter game George Colburn and John Merrill, both of the Kappa's, hit triples. Only two Theta Upsilon men got to first base and only one of these got further, getting to third in the last inning. Kirvan was never in danger in any of these games and always had the opponents well in hand.

Delta Sigma Chi has also won the three games that it has played. They conquered Theta Kappa Phi, 2-1; Alpha Gamma Rho 7-1 and shut out Phi Delta Upsilon two to nothing. In all of these games the winners played heads up ball and deserved to win.

Theta Chi has won three out of four games. In the first contest that it played Phi Mu Delta was the winner. The next contests, with Sigma Alpha Epsilon and Phi Alpha resulted in wins for Theta Chi. As a result of Theta Chi winning these two games and Phi Mu Delta losing one, a tie for first place resulted which made a play off necessary. In the play off Theta Chi won out by a 5-4 score, thus necessitating a second play off for this team.

## FROSH REDEEM SELVES BY BEATING ST. ANSELM 3-1

After several bitter defeats the University freshman baseball nine finally crashed through Tuesday to defeat St. Anselm's preparatory school on Brackett Field by a 3 to 1 score. McKean, Sweet, and Eustis scored the runs for the Kittens.

This was perhaps the tightest game in which the Kittens have taken part this season. With the exception of Shea's two base hit and McIntyre's three base drive, both players for the visitors, nothing but single base hits were made.

Guptill pitched the entire game for the local team with Patenaude behind the bat. Both these men played an excellent game. McKean made a sensational play while playing second which, with little doubt, was responsible for the visitors being held to a single run.

The battery for St. Anselm's was Dougherty, Jordan and McIntyre.

## CHI OMEGA HOLDS ANNUAL SPRING FORMAL DANCE

The annual spring formal dance was held at the Chi Omega House Friday night, May 31. The house decorated with lilacs and apple blossoms had the appearance of a beautiful garden with the Red Ramblers retired at the further end of the room furnishing the music for the dancers.

Mrs. Rena Kramer, house matron, and Miss Elizabeth Sawyer of Dover, a patroness of Chi Omega, were the chaperones. Miss Frances Archibald who was a guest of the fraternity came from Jackson College as a delegate from the Chi Omega chapter there.

Juniors: Henry Smith, Dover; William DuBois, Concord; and Justin D. Flannigan, Portsmouth.

Seniors: John Dow, Lakeport; Randolph Chapman, Groveton; and Donald Harriott, Concord.

The military officers of the regular army responsible for the marked accomplishments of the R. O. T. C. during the year are, Major Hugo E. Pitz, Coast Artillery Corps, professor; Captain James H. Day, Infantry, assistant professor; Captain Norman P. Williams, Infantry, assistant professor; First Lieutenant, Robert F. Carter, Infantry, assistant professor; Sergeant Patrick Hodge, Coast Artillery Corps, assistant; Sergeant Fred W. Wood, Coast Artillery Corps, assistant; and Sergeant Fred H. Brown, Infantry, assistant.

Within the next few days Captains Gilmore and Williams will leave for summer camps where they will aid in preparing the camps for the six-week training period. During the summer, Captain Williams will act as instructor in infantry at Camp Devens, Mass., and Captain Gilmore will be instructor in coast artillery at Fort Monroe, Virginia.

## BROWN GAME CLOSES BASEBALL SEASON

One Game With Connecticut Aggies and Two With Brown Will Each Be Part of Commencement Week Events at Storrs, Providence and Durham

Three commencement day games will wind up the season for the Wildcat baseball team. Next Saturday the New Hampshire boys play the Connecticut Aggies at Storrs as a part of the Nutmeggers' graduation exercises. Two games with Brown will be played on June 15 and 17 respectively, the first at Durham to celebrate Alumni day, and the second at Providence for a similar service at Brown.

Coach Swasey expects to start Jablonowski on the mound against the Aggies who are college champions of Connecticut. Jablonowski, who pitched the defeat to Dartmouth last Saturday, although only a sophomore, has been performing well all season, and should give the boys from Storrs something to think about. He will also pitch the game against Brown at Durham. Either Clement or Seaver will do the hurling at Providence. Since both are seniors this will be the last chance for either of them to perform for the university as baseball players. There is a possibility that both will be used for an inning, at least in this game.

The remainder of the lineup will be much the same with the possibility that Lane will replace Hanna at center field. Dawson will play first base; Capt. Flynn, second base; Reinhart, shortstop; Redden, third base; Macfarland, left field; Hanna or Lane, center field; and Tilton, right field.

The game at Providence will be the last game of their college careers for Dawson, Capt. Flynn, Reinhart, and Redden who are seniors.

## CHARLES HOOD HERE JUNE 14 (Continued from Page 1)

The dancing will last from nine o'clock until two. Tickets have been on sale the first of this week for Seniors and a very limited number is now on sale for underclassmen at three-fifty a couple. The dance is formal and there are no favors. The committee in charge of the ball is David Beck, chairman; Frank Watts, music; David Campbell, refreshments; and Celia Campbell and Ruth Pitcher, dance partners.

Saturday will be Alumni Day and Class Day. The class day exercises will be held in the Men's Gymnasium at 10:30 A. M. At 11:45 the reunion class luncheon will be held. Those classes scheduled for reunion at the present time are 1874, 1875, 1876, 1877, 1879, 1893, 1894, 1895, 1896, 1904, 1909, 1912, 1913, 1914, 1915, and 1927. Also at this time will be held the meeting of the class of 1492. This unique class has been conceived of so that alumni returning to Durham for the Alumni Day may have a reunion even though their own classes are not holding reunions.

At 1:30 on Saturday the Alumni Parade, headed by the University Band under the direction of Lewis Swain, '12, will proceed from the Commons to the Dairy building where President Lewis will dedicate a tablet presented by Edward M. Stone of the class of 1892. The tablet will mark the spot of the first graduation exercises of New Hampshire. From the Dairy Building the crowd will move to Brackett Field where the varsity baseball team will meet Brown in the customary Alumni Day baseball game. The alumni banquet will be held in the Commons Saturday evening and will be followed by the last presentation of Minick.

Sunday morning will witness the Baccalaureate Service at the Men's gymnasium at which time the Reverend Daniel Evans, D.D., of the Harvard Divinity School at Cambridge, Mass., will deliver the address.

From 2:30-4:00 p. m. President Lewis will hold a reception at his home. Following the reception, Professor Robert W. Manton will present an organ recital at the Community church assisted by Roland E. Partridge, tenor. In the evening at 8:00 p. m. the University Band will give an open air concert on the campus.

Commencement will close with the Graduation exercises which will be held in the Men's gymnasium on Monday morning. Charles Stelzie, an outstanding authority on industrial, religious, and social problems will be the speaker. He comes to New Hampshire well prepared to speak on his topic, "Leadership in the New Democracy" as he has been a newsboy, messenger, street-peddler, busy-boy, artificial flower maker, mechanic, and pastor. These various occupations have afforded him great opportunities to study different walks of life first hand. He has done a great deal in the field of journalism, publicity, and general authorship, having served on

## Varsity Ends Track Season

Springfield Succumbs  
Under Wildcat Attack

Varsity Emerges Undefeated From Difficult Schedule—Charles Brown and Earl Brooks Break College Records in Hammer and Pole Vault

The varsity track team overwhelmingly defeated the Springfield college team by the score of 88 to 47, last Saturday afternoon at Springfield. This victory ended a very successful season in which the team has been undefeated. This season has also been characterized by the breaking of many college records.

The Wildcat tracksters encountered little difficulty in defeating the Springfield team. Captain Noyes easily took the quarter mile with Lazure placing second. Out of the fifteen events New Hampshire won twelve first places.

The high points of the meet were the breaking of two college records. Charles R. Brown, '29, broke the previous record for the hammer throw, making a throw of 131 feet, six inches. The previous record was held by P. Davis, with a throw of 126 feet, three inches. Earl Brooks, present holder of the college record in the pole vault, bettered his own record of twelve feet by making twelve feet, three-quarters inches.

The summary:

100 yard dash—Amann, Springfield; Higgins, Springfield; Burdett, N. H. Time, 10 seconds.

440 yard dash—Noyes, N. H.; Lazure, N. H.; Flood, Springfield. Time, 50 1-5 seconds.

220 yard dash—Noyes, N. H.; Amann, Springfield; Higgins, Springfield. Time, 22 seconds.

880 yard dash—Richardson, N. H.; Cahalan, N. H.; Lazure, N. H. Time, 2 minutes, 1 1-5 seconds.

One mile run—Cahalan, N. H.; Bennett, Springfield; Richardson, N. H. Time, 4 minutes, 30 seconds.

Two mile run—Woodward, N. H.; Hazen, N. H.; Bennett, Springfield. Time, 10 minutes, 5 seconds.

120 yard high hurdles—Sucke, N. H.; C. Smith, N. H.; Barron, N. H. Time, 16 seconds.

220 yard low hurdles—Booker, Springfield; C. Smith, N. H.; Babcock, Springfield. Time, 25 seconds.

Shot Put—Bruce, N. H.; Michael, S.; Geesman, S. Distance 39 feet, 11 inches.

Hammer Throw—Brown, N. H.; Vaughn, S.; G. Smith, N. H. Distance, 131 feet, 6 inches.

Discus Throw—Geesman, S.; Davis, N. H.; Chandler, N. H. Distance, 118 feet.

Javelin Throw—Stewart, N. H.; Geoffrin, N. H.; Elerin, S. Distance, 162 feet, 3 inches.

High Jump—Wooley, N. H.; Crowell, S.; Brooks, N. H. Height, 5 feet, 9 1/2 inches.

Broad Jump—Wooley, N. H.; Fischer, S.; Tate, S. Distance, 22 feet.

Pole Vault—Brooks, N. H.; Herr, S.; Matteson, S. Height, 12 feet, 3/4 inches.

the editorial staffs of several American newspapers. The magazines of the country have been enriched by his many contributions. He has recently written an autobiography entitled, *A Son of the Bovey*. This book has been praised as equal to Booker T. Washington's *Up From Slavery* and Jacob Riis' *The Making of an American*.

## GRADUATE STUDENTS TO RECEIVE DEGREES

Russell Bissey Submits Thesis on the "Relative Values of Herbicides for the Control of Mustard"

Twenty-one students of the Graduate School of the University of New Hampshire are to receive advanced degrees at the fifty-ninth annual commencement on Commencement Day, Monday, June 17, according to announcement from the office of Dr. Hermon Slobin, Director of the Graduate School.

Russell Bissey who received his B. S. degree from Colorado Agricultural College in 1927 will receive an M. S. degree from New Hampshire this June. Bissey majored in the Department of Botany and minored in Biological and Agricultural Chemistry and has submitted a thesis on the "Relative Values of Herbicides for the Control of Mustard."

In his thesis Bissey states that "Herbicides have been used for the control of weeds during the last thirty years." Considerable work has been done in regard to materials used as sprays and dusts for the control of mustard materials according to their relative effectiveness. Because of the need for this classification the present investigation was carried on.

In conclusion he states that "It appears from the data collected that copper sulphate is a convenient and cheap spray to use for the eradication of mustard. Ferrous sulphate when available is also cheap and quite as effective. However, the cost of transportation is a factor which must be considered. Since it takes practically four times as much ferrous sulphate as copper sulphate to give an equal eradication, one would favor the use of copper sulphate.

Sulphuric acid is the surest and cheapest spray to use but on account of its corrosive nature it requires special machinery and cautious handling to give satisfactory results.

Of the other sprays used, copper nitrate, sodium bisulphate and sodium hydroxide give excellent results but are too expensive for practical use. Not enough work has been done with sodium bichromate to warrant drawing a conclusion regarding its use. Ammonium sulphate and sodium nitrate are not effective, while a mixture of sodium nitrate and copper sulphate is but very little better than copper sulphate alone.

Of the dusts used, calcium cyanamide gives the greatest injury, followed by a kainite and dry ferrous sulphate in order."

## WEEK-END PARTY HELD BY ALPHA CHI OMEGA GIRLS

Alpha Chi Omega had a week-end party June 1-2 at Foster's Pond Andover, Mass. The girls enjoyed swimming, boating, and driving about the surrounding country. Two alumnae, Gladys Slocum and Elvira Dillon, accompanied the girls on the party.

## NOTED AUTHORITIES AT POULTRY SHOW (Continued from Page 1)

morning of the second day Prof. Lewis will discuss the national poultry outlook. In the afternoon he will talk of the future of the poultry industry in New England. Other discussions for the second day will be concerned with the prevention of disease infection and worm infestation, the commercial significance of egg weights, and the bearing of breeding factors on flock improvement. Each talk will be followed by a general discussion. The session in the first day will be preceded by a business meeting and election of officers of the association.

For many years John Ward have been the college man's shoe. Here you may select, from a variety of styles, those which particularly suit your individual taste.

## FROSH TRACK TEAM BEATEN ONLY ONCE

Toolin High Scorer With 39 Points Unanimously Elected Captain—Abramson Second High Scorer

Although no freshman records were broken this year the freshman track team completed a successful season, scoring two victories against one defeat which was by a margin of eight points. Joe Toolin, who was unanimously elected captain, proved to be high scorer with a total of 39 points, capturing two firsts and a second place in each meet. Abramson was a close second with 32 points. Other high scorers were Finley with 15 1/2 and Woods with 11. Whitehouse showed ability in the hurdles, but encountered a bit of hard luck when he sprained his ankle during a meet. A summary of the season is as follows:

N. H. Frosh	81	M. I. T. Frosh	45
B. C. Frosh	67	N. H. Frosh	59
N. H. Frosh	70 1/2	Brown Frosh	54 1/2

## PHI MU DELTA COURT TEAM WINS INTRAMURAL DOUBLES

Fred Brown, '29 and Arnold Blake, '30 have won the Intramural Doubles Championship for Phi Mu Delta, by scores of 6-3, 6-1, 6-3 from the Phi Alpha team consisting of Archie Rabinovitz, '29 and Morris Leopold, '29.

Last year the doubles were won by Theta Chi. The reason that this fraternity did not repeat seems to indicate that the competition has been much more intense this year.

The singles have not been finished yet. Phi Mu Delta has reached the finals in these also and will meet the winner of the Tri Gamma and Alpha Tau Omega match soon. Fred Brown is the Phi Mu Delta representative in the singles and in the finals will be pitted against either Norman Young, '29, A. T. O., or Henry Phelps, '31, Tri Gamma contestant. The singles last year were also won by Theta Chi.
